31 July 1959

Dear Kelly and Dick

In accordance with the agreement made at our meeting on Wednesday 29 July, I have made the following tentative arrangements for Paul and myself:

17 August leave Idlewild 5:00 pm - arrive Los Angeles 7:35 pm

TWA Flight No. 1

18 August - discussion with your engineers from 8:00 to 5:00

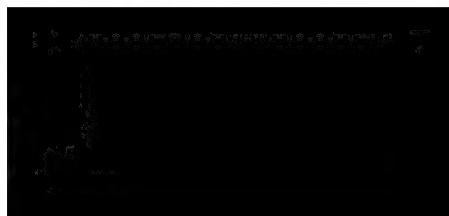

19 August leave Los Angeles 8:40 am

Enclosed herewith is a list of questions and suggestions for discussion as well as the blueprints which you saw Wednesday. There is one additional blueprint enclosed which illustrates the increase in the forward field of the lens from 15° to 17°.

Someone from Headquarters, possibly Dick, will accompany Paul and myself. They will also confirm security clearances, of course.

I will be on vacation from 1-16 August, but if you wish to reach me I will probably be home most of the time. My address and telephone number are:

STATINTL

Best regards

Milt
